LIST OF THE COMMITTEE OF VISITORS, 1872.

Chairman :

E. A. SANDERS, Esq., Stoke House, Exeter.

EARL OF DEVON, Powderham Castle, near Exeter.

EARL FORTESCUE, Castle Hill, Southmolton.

LORD CLINTON, Heanton, North Devon.

LORD POLTIMORE, Poltimore, Exeter.

SIR E. S. PRIDEAUX, Bart., Netherton Hall, Honiton.

SIR STAFFORD H. NORTHCOTE, Bart., M.P., Pynes, Exeter

SIR JOHN L. DUNTZE, Bart., Starcross, Exeter.

SIR LAWRENCE PALK, Bart., M.P., Haldon House, Exeter.

SIR J. T. B. DUCKWORTH, Bart., Weir House, Exeter.

J. H. BULLER, Esq., Downes, Crediton.

D. B. DAVY, Esq., Grove Hill, Topsham.

E. S. DREWE, Esq., The Grange, Cullompton.

JOHN GARRATT, Esq., Bishop's Court, Exeter.

CHARLES GORDON Esq., Wiscombe Park, Honiton.

J. G. JOHNSON, Esq., Cross, Torrington.

S. T. KEKEWICH, Esq., M.P., Peamore, Exeter.

WM. MILES, Esq., Exeter.

JOHN MILFORD, Esq., Coaver, Exeter.

REV. J. H. PARLBY, Manadon, Plymouth.

T. E. DRAKE, Solicitor, Exeter,

Clerk to the Visitors.

ASYLUM STAFF.

Medical Superintendent :

DR. G. SYMES SAUNDERS.

Assistant Medical Officer :

DR. REES-PHILIPPS.

Chaplain :

REV. G. F. LEWIS

Clerk of Asylum :

MR. F. SANDERS.

Auditor :

MR. F. POLLARD.

Storekeeper :

MR. W. B. KENNEDY.

Housekeeper :

MRS. QUICKE.

Head Female Attendant :

MISS MORGAN.

Head Male Attendant :

MR. KENDALL.

REPORT OF THE COMMITTEE OF VISITORS.

Epiphany Sessions, January 2nd, 1872.

The Committee of Visitors of the Devon County Lunatic Asylum, in presenting their Annual Report as required by Act of Parliament, have much pleasure in being able to state that the condition of the Asylum during the past year has been in all respects satisfactory, and that the health of the patients (notwithstanding the very crowded state of the wards) has been good.

There are now in the Asylum 704 patients, of whom 268 are males; and 436 females. The admissions for the past year have been 185—83 males, and 102 females—95 have been discharged and 74 have died; of the total number in the Asylum 64 are borough patients.

The buildings are in good repair, and much progress has been made during the past year in the removal of the asphalte floors and substitution of timber. The inadequacy of bath accommodation has induced the Committee to consider the plans prepared some time since by their orders, and they have resolved to submit them to the Court at this Sessions, and to ask them for a grant of £600 to enable them to carry out the work. The health and comfort of the patients render this absolutely necessary to be accomplished without further delay.

The Committee have also to ask for a grant of £400 for a new boiler and new heating apparatus in lieu of the old ones which are worn out. Also for a grant of £200 for completing the farm buildings.

Another matter which, though not so urgent, as the preceding, must yet be very soon brought under the consideration of the Court, namely, the insufficiency of accommodation in the Chapel which in the reports to Parliament is stated to be "a Chapel of most inconvenient position and structure, and totally inadequate for an Asylum with a population of more than 750 persons." The present Chapel will accommodate 150 only, and the Committee understand from the Medical Superintendent that at least 400 might attend if adequate room were afforded. The Committee at present have no definite proposition to submit to the Court, but they mention the subject as one that must shortly engage its serious attention.

In their last report the Committee referred to the appointment they had made of two officers, namely, a storekeeper, and auditor; they were led to make these appointments in order to the better and more economical management of the Asylum, and they have the gratification of reporting that the results have been most satisfactory. During the past year the Committee have been enabled to reduce the weekly charge for county patients from 9s. 6d. to 8s. 6d. per week, a charge as low, if not lower than at any other Asylum in the kingdom.

Of the conduct of the officers and servants of the Asylum the Committee have every reason to speak in terms of high praise, and especially of the kind and skilful treatment which the patients receive from the Medical Superintendent, Dr. Saunders.

The Committee will, as the Act of Parliament requires, prepare a statement of the accounts for the past year, and present it to the Court at the next Quarter Sessions. They have to remind the Court that the appointment of Visitors must now be made for the ensuing year.

EDWARD A. SANDERS, *Chairman.*

TWENTY-SIXTH ANNUAL REPORT

OF THE

MEDICAL SUPERINTENDENT.

The Medical Superintendent has the honour to submit to the Committee of Visitors the Twenty-sixth Annual Report, accompanied by the Statistical Tables in the Appendix.

During the year 1871, 185 Patients have been admitted, of whom 83 were males and 102 were females.

The deaths during the year have been 74,—males, 38, females, 36.

During the same period 95 Patients have been discharged, —males, 46 ; females, 49. Of this number 69 were discharged recovered,—males, 33 ; females, 36.

Compared with the previous year, the admissions show a decrease of 18, the discharges a decrease of 51, and the deaths an increase of 6.

The total number of Patients under treatment during the year has been 873,—males, 352 ; females, 521.

The following Table gives more fully the changes which have occurred.

	Males.	Females.	Total.
Patients in Asylum, 1st Jan., 1871 ...	269	419	688
Admitted for the first time	67	67	134
Re-admitted during the year	16	35	51
Total under care during the year ...	352	521	873

	M.	F.	M.	F.	Total.
Total brought forward ...		...	352	521	873
Discharged or Removed—					
Recovered	33	34			
Relieved	7	7			
Not Improved ...	6	6			
Not having been found Insane ...		2			
Died	38	36			
Total discharged and died		...	84	85	169
Remaining 1st Jan., 1872 ...		...	268	436	704
Average number resident during the year			271	426	697
Maximum number on Books, Aug. 30th			280	434	714
Minimum, February 12th, 1871 ...			264	414	678
Number deemed curable, 1st. Jan., 1872			9	11	21

Of the 704 Patients in the Asylum, 640 are chargeable to Unions; 6 to Plymouth, 25 to Exeter, and 33 to other non-contributing boroughs.

The per-centage of recoveries on the admissions has been 37·3; 39·7 per cent. on the males, and 35·2 on the females, which is somewhat lower than in previous years; the reason being that the year commenced with 24 probably curable Patients, and the admissions have been of a less satisfactory class than is usual. As the year has closed with only 21 Patients who are probably curable, a high per-centage of recoveries for the coming year cannot be anticipated.

The average per-centage of recoveries in the English County and Borough Asylums for the last year was 36·36.

The rate of mortality has been 10·6 per cent. on the daily average number resident; 14 per cent. on the males, and 8·6 per cent. on the females; and, calculated upon the total number of Patients under treatment, has been 8·47. The number of deaths to 100 of the average number resident in the County Asylums for the previous year was 10·81 and 8·48 per cent. on the total number under treatment.

The following have been the chief causes of death:—General Paralysis, 18; Epilepsy, 4; other Diseases of Brain, 5; Phthisis Pulmonalis, 12; Diseases of Heart and Lungs, 10; Diarrhœa, 7; Peritonitis, 1; Erysipelas, 1; Cancer uteri, 2; Cancer of Stomach, 1; General Debility and Old Age, 9; Suicide by Drowning, 1; other Diseases, 3.

The general health of the patients has been good, and there has not been any epidemic disorder in the Institution during the year, although the wards in the female division are much overcrowded, and it has at times been difficult to find accomodation for patients as they have presented themselves for admission

An inquest was held on W. P., a male Patient, who was drowned in a manure pit in the garden, on the 29th April last. This pit was usually dry, and was a receptacle for garden refuse, but at this period, owing to recent heavy rains, contained about three feet of water. At the time of admission he was suffering from Melancholia, with symptoms of General Paralysis, but, having shewn marked symptoms of improvement, he had for several months been sent out with a working party in the garden. On the day in question the gardener neglected to count the Patients as they left the garden for dinner; this Patient loitered behind, and was found dead a quarter of an hour afterwards. All attempts to restore him by artificial respiration failed.

A large number of Patients with suicidal tendencies have been under treatment. These Patients at all times are a great source of anxiety to the medical officers and attendants, and tax their care and attention to the utmost. It is but justice to state that the nurses and attendants, as a rule, deserve every credit for their praiseworthy efforts to thwart the cunning and determination shewn by Patients of this class.

There are but few casualties of a serious nature to report. In September last the brewer, Barrow, sustained a fracture of two ribs from the violence of a Patient. The attack was entirely unprovoked. M———, a male Patient, was operated on for strangulated hernia; he made a rapid recovery.

On the 25th of June a fire occurred in the servants' hall. The damage was fortunately limited to this room, and was not considerable. The circumstance induced the Visitors to effect new policies of insurance on the Asylum buildings, furuiture, and stores.

The following structural alterations and additions to the Asylum buildings have been carried out. A detached mortuary has been erected. The asphalte in the galleries and day-rooms is being gradually replaced by pitch pine flooring. The work is performed by our own staff of artizans, with the assistance of Patients, and at the present time new flooring has been laid down in three wards, and the whole of the work will be completed by the end of the year 1872. The female new house has been painted and papered throughout. Much has also been done in the wards generally to give them a more cheerful aspect.

The twenty-fifth report of the Commissioners in Lunacy contains valuable statistics, shewing the proportion of pauper lunatics to population and to paupers in every county in England and Wales. The per-centages of the insane poor of every county maintained in Asylums, kept in Workhouses, and resident as out-door paupers, are likewise set forth. An excerpt from these tables, shewing the state of pauper lunatics in this county, may not be devoid of interest.

On the 1st of January, 1871, there were in Devon 1438 pauper lunatics, 686 of whom were maintained in the County Asylum; 28 were in registered hospitals and licensed houses; 312 in workhouses; 324 residing with relatives and friends, and 70 were in Asylums chargeable to County and Borough rates

The population of the County at the same date was 605,508; the total number of pauper lunatics, idiots, etc., 1438; and the rates per 1000 to the population, 2·37.

The total number of paupers of all classes on the 1st of January, 1871, was 35,222; total number of pauper lunatics, 1438; and the per-centage of pauper lunatics to paupers 4·08. Of the total number of lunatics (1438) 55·77 per cent. were maintained in Asylums; 21·70 per cent. kept in Workhouses; and 22·53 resided with relatives and friends.

It has been most gratifying and encouraging to your Superintendent that the weekly charge for maintenance has been reduced from 9s. 6d. to 8s. 6d. within the last year.

The average weekly cost of maintenance, medicine, clothing, and care of Patients, has been 8s. $3\frac{5}{8}$d.

	s.	d.
Salaries and Wages	1	$7\frac{3}{4}$
Provisions	4	$1\frac{1}{4}$
Wine and Spirits		$\frac{5}{8}$
Necessaries (*e.g.*, Fuel, Light, Washing, &c.) ...		$9\frac{3}{4}$
Surgery and Dispensary		$\frac{5}{8}$
Clothing		$9\frac{1}{2}$
Bedding and Furniture		$3\frac{1}{4}$
Garden and Farm		$5\frac{1}{2}$
Miscellaneous (*e.g.*, Tobacco, Snuff, Stationery, &c.)		$3\frac{1}{2}$
Total	8	$5\frac{3}{4}$
Less monies received for Goods and Produce sold ...		$2\frac{1}{8}$
Total average weekly cost per head ...	8	$3\frac{5}{8}$

The total weekly cost per head averaged in County Asylums 9s. $5\frac{1}{2}$d. for the year 1870.

The only change in the staff of Officers was occasioned by the resignation, in July, of Dr. Burman, who had ably performed the duties of Assistant Medical Officer for more than two years. He resigned on his obtaining a similar appointment at the West Riding Asylum, Wakefield, and has been succeeded by Dr. Rees-Philipps, who, from his kindness to all, combined with his high professional abilities, is well qualified for the position he holds.

Your Medical Superintendent avails himself of the opportunity of acknowledging the valuable and willing aid he has received from the other Officers of the Asylum, and in conclusion begs to tender his thanks to the Visitors for their valued counsel and support, which have materially lightened his anxious and onerous duties during the past year.

(Signed)

G SYMES SAUNDERS, M.B. (Lond.)

Member of the Royal College of Physicians (Lond.)

Medical Superintendent.
